## INTRODUCTION

The *Northern Lights* Canadian National Conservatory of Music has developed its examination programs to provide a maximum amount of curriculum and as much creative flexibility as possible.

The curriculum base for each program is no substitute for a **holistic music education**. We recognize that teachers must develop programs of study to suit the individual needs of their students and enrich these programs far beyond the scope of any institution's curriculum.

The curriculum in this program is only a **minimum basis** for study. Students and teachers should strive to learn a maximum number of works from all periods in each grade level. **Five to ten works from each stylistic period** is recommended as a minimum number before attempting an examination. Musicianship skill areas should be mastered thoroughly. Remember that in the case of technique, metronome minimums are just that - minimums! If the minimums have been accomplished, attempt faster speeds. If a student has mastered the aural requirements for his/her grade level, then s/he should learn the next level of requirements.

**Examinations** are wonderful goals for students. They provide a focus for study and an opportunity to perform and learn. Examinations can also be a period of high stress for the candidate. Nervousness can affect the marks obtained during an examination. Students and teachers should remember that the final mark of an exam does not always best reflect a student's abilities. Nevertheless, performance anxiety is a part of life and the examination experience can help students learn to manage their nervousness and become stronger performers.

**Theme Examinations** provide the student and teacher an exceptional opportunity to focus on areas of interest. Remember that repertoire from all genres completes a holistic music education. Students should study **ALL** styles of music. (see page 8 for suggested themes and guidelines)

Students should have full comprehension of and appreciation for historical, stylistic, analytical/theoretical and biographical issues for each work studied.

Candidates should remember that **technique** is only a means to an end. All technical exercises should always be practised with musical intention and good tone.

Advanced exercises at the Grade 9 and 10 levels are included in order to demonstrate to the student the direction s/he needs to pursue in order to acquire an advanced piano technique.

Design a program of study which helps students develop style progressively.

### **Example:**

**The Fugue:** begin with Inventions or imitative style works in the junior levels. There are short Fugues at the intermediate levels as well as the Inventions and Sinfonias of J.S. Bach. Culminate in the Preludes and Fugues by J.S. Bach and others.

**Sonata Form:** begin with Ternary form movements in junior piano. Proceed to Sonatinas at the intermediate levels and finally the large scale Sonata works by composers such as Haydn, Clementi, Mozart, Schubert and Beethoven.

Remember, this curriculum is only the foundation stone for a never ending musical journey.

We hope you enjoy our Performance Examination Program!

## TECHNICAL EXAMPLES

### Two Octave Formula Pattern

The image displays two systems of musical notation for a 'Two Octave Formula Pattern'. Each system consists of a grand staff with a treble clef on the upper staff and a bass clef on the lower staff. The time signature is common time (C). The first system contains four measures of music. The second system contains four measures, with the final measure in both staves ending with a double bar line. The notation features a series of eighth and sixteenth notes, with some notes beamed together, illustrating a technical exercise across two octaves.

### C Whole Tone

The image shows a single staff of music for the 'C Whole Tone' exercise. The key signature is C major (no sharps or flats). The time signature is 3/4. The melody consists of a sequence of notes: C4, D4, E4, F#4, G#4, A#4, B4, C5, B4, A4, G4, F4, E4, D4, C4. The notes are beamed together in pairs, and the piece concludes with a double bar line.

**THEORY CO-REQUISITE: Grade Seven Theory**  
**TECHNICAL EXAMPLES**

**Four Octave Formula Pattern**

The musical score consists of four systems of piano accompaniment, each with a grand staff (treble and bass clefs). The key signature is one flat (B-flat) and the time signature is 2/4. The first system is marked with an 8va line above the treble staff. The second system is marked with an 8va line above the treble staff. The third system is marked with an 8va line above the treble staff. The fourth system concludes with a double bar line. The music features a consistent rhythmic pattern of eighth notes in both hands, with the right hand often playing a melodic line and the left hand providing a harmonic accompaniment.

**Separated by a 10<sup>th</sup> Scale**

The musical score is a single system of piano accompaniment with a grand staff (treble and bass clefs). The key signature is one flat (B-flat) and the time signature is common time (C). The music features a consistent rhythmic pattern of eighth notes in both hands, with the right hand often playing a melodic line and the left hand providing a harmonic accompaniment. The score concludes with a double bar line.

## Broken 4-Note Chord

The image shows a musical exercise for a broken 4-note chord in treble clef, common time. The exercise is written across two staves. The first staff contains the first six measures, and the second staff contains the remaining six measures. The notes are G4, A4, B4, and C5, which are broken across the staves in a sequence of eighth notes. The first staff starts with a treble clef and a common time signature 'C'. ## BIBLIOGRAPHY

**The following list of pedagogical materials is suggested by the Northern Lights Canadian National Conservatory of Music as a guide for study. Teachers and students should consult many sources for study and not rely on any particular publication for examination preparation.**

### Piano Repertoire:

**The Northern Lights Canadian National Conservatory of Music allows teachers and students the freedom to choose from ANY reliable sources for repertoire selection. A reliable source is defined as one which is a good **Urtext** or a good **Artist's edition**:**

**Artist's Edition:** an edited edition by an artist-performer or scholar\*.

\*Teachers and candidates should be sure to investigate and choose artist's editions which have modern scholarship at their foundation. Some 19th and 20th century editions have wrong notes, unreliable ornament realization and other added interpretive details that may be outdated or incorrect.
